Subject: Thanks and further request

Hello sir, Namaste!

At first we would like to thank for providing two volunteers for effective teaching and good pronunciation. Mrs Margreat and Valerie provide great contribution to students as well the whole school families. They make easy in teaching process, making effective lesson plan, for correct pronunciation, for extra activities and many more. We know about the teaching process but we can not express effectively but now we can teach the students what we learn. And we are fully satisfied from their teaching method. We can not forget their contribution.

We heard that, in 2011 same type of program will be continue in our school. We request you to manage this as our school program and vacation schedule. We have already sent the total school education schedule and School education schedule will run regularly from November to March after Dashin and Tihar vacation. We are waiting for new volunteers, Gillian Andrew, Nick Leader and his wife Jill and Susan Freeman.

At last, we thank for your help and cooperation to our school.

Yours,
Mr. Damodar Sapkota
(Head Master)
